

In Collaboration with

Dhirubhai Ambani University – School of Law Senior Executive Development Programme on Construction Law & Dispute Resolution, in partnership with The Dickson Poon School of Law, King's College London

 **01-05 June 2026**

 **On-site Programme: London**

The Dhirubhai Ambani University - School of Law Senior Executive Development Programme on Construction Law & Dispute Resolution, in partnership with The Dickson Poon School of Law, King's College London is a high-impact executive programme jointly developed by the **Dhirubhai Ambani University School of Law**, its academic partner **The Dickson Poon School of Law, King's College London**, and its industry partners **Kroll** and **Clyde & Co.**

Designed for senior professionals, the programme positions construction law, contracts, and arbitration as strategic leadership tools. It integrates global best practices with real-world industry insights to enhance decision-making in contract management, risk allocation, claims, and dispute resolution, equipping participants to lead complex, high-value infrastructure projects with confidence.

Ideal for:

Lawyer, C-suite executives, senior government officials and bureaucrats, infrastructure and project leaders, in-house counsels, contract and claims managers, engineers, regulators, and policy strategists.

KEY OUTCOMES

Strategic mastery of construction contracts, risk allocation, and claims management across complex infrastructure projects

Ability to lead and advise on dispute-avoidance strategies and effective use of arbitration, mediation, and hybrid mechanisms

Deep understanding of cross-border infrastructure disputes

Enhanced decision-making capacity for high-value, time-sensitive, and technically complex construction disputes

Cross-disciplinary thinking across law, engineering, project management, finance, and quantum analysis

Strengthened leadership in stakeholder management, expert coordination, and dispute strategy formulation

Enhanced legal leadership capabilities for managing disputes on large, complex projects, integrating legal strategy with project management realities

Programme Outline

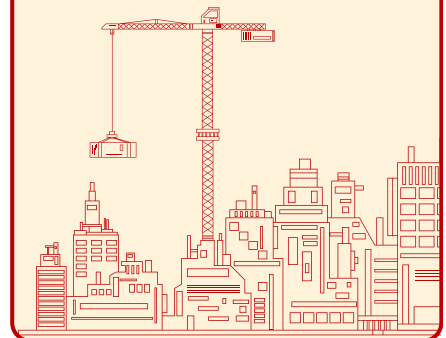

Two days of academic training session with **The Dickson Poon School of Law, King's College London**

Two days of industrial training, engaging & learning sessions with **Kroll and Clyde & Co.**

One day of institutional visits in London.

Participant Profile

C-suite executives and senior management involved in large-scale infrastructure development

Senior government officials, bureaucrats, regulators, and public-sector leaders engaged in infrastructure planning, procurement, and dispute management

Lawyers, dispute resolution practitioners, in-house counsels, and senior legal advisors

Project directors, infrastructure and project leaders, engineers, and contract administrators responsible for delivery, claims, and risk mitigation

Contract, claims, and commercial managers

Delay and quantum experts and advisors

The cohort is intentionally cross-sectoral and multidisciplinary aimed to foster rigorous peer learning, practical insight-sharing, and a global perspective on construction law and dispute resolution.

Key Highlights and Benefits

Immersive two-days academic training delivered by leading experts from The Dickson Poon School of Law, King's College London.

Direct exposure to world-class faculty from King's College London, internationally recognised for developing one of the most advanced construction law and dispute-resolution programmes globally.

Industry-focused learning and engagement with globally renowned specialists in construction law, arbitration, delay analysis, and quantum assessment.

A cross-disciplinary curriculum integrating construction law, contracts, engineering principles, and project management practices.

Access to global thought leadership through the programme's academic and industry partners.

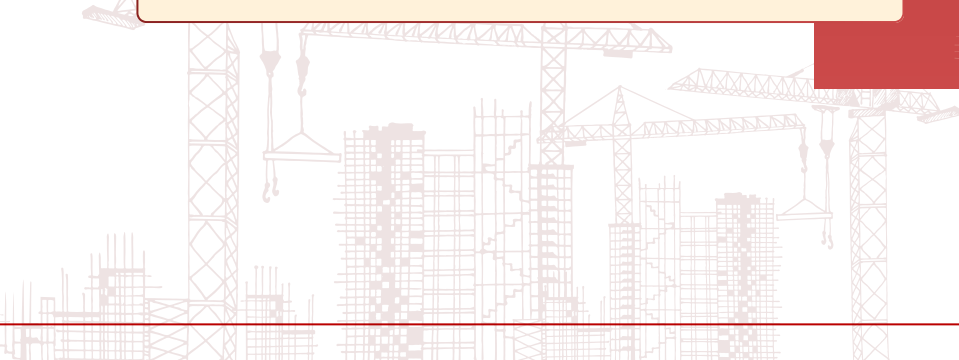

High-value networking opportunities with senior executives, practitioners, and international experts in construction law and dispute resolution.

Gain comparative insight into internationally recognised best practices in construction law and dispute resolution.

The London Construction Law Experience

Participants will gain exclusive access to the distinguished academic environment of King's College London, including immersive learning on the King's College London campus, and engagement with leading scholars and industry practitioners at the forefront of construction law and dispute resolution. The programme offers a unique London experience, with exposure to the city's top legal and arbitration institutions, as well as opportunities to explore its rich legal heritage and global professional ecosystem that define London as a hub for construction law and dispute resolution practice.

Two-days Academic Training with The Dickson Poon School of Law, King's College London

About the Institutions

Dhirubhai Ambani University – School of Law

True to its name, Dhirubhai Ambani University School of Law stands for vision, ambition, and progress. It is committed to preparing a new generation of professionals and leaders equipped for the opportunities and tools while understanding the responsibilities of a rapidly evolving India. Interdisciplinary learning is central to the School's ethos, shaping perspectives on infrastructural developments, dispute resolution, project management and leadership in a world undergoing transformative change.

The Dickson Poon School of Law, King's College London

The Dickson Poon School of Law, King's College London is a globally recognised centre for excellence in legal education, scholarship, and research, with a distinguished focus on construction law, contracts, and dispute resolution. Renowned for its rigorous academic training and practical engagement with complex infrastructure and construction projects, the School equips leaders with the analytical tools, strategic insight, and global perspective required to navigate domestic and cross-border disputes. Through a blend of research-led teaching, industry collaboration, and immersive learning experiences, King's College London prepares professionals to excel in high-value projects, arbitration, and innovative dispute-resolution frameworks worldwide.

Faculty Profile for Academic Training with The Dickson Poon School of Law, King's College London

Dr Aleksander Godhe

*Michael Brown Lecturer in Construction
Law and Dispute Resolution*

Dr Aleksander Godhe is the Michael Brown Lecturer (Assistant Professor) in Construction Law and Dispute Resolution at the Centre of Construction Law & Dispute Resolution, The Dickson Poon School of Law, King's College London. He is also a Visiting Fellow at the Stockholm Centre for Commercial Law and a Visiting Lecturer in English Commercial Law at the British Law Centre. Dr Godhe has extensive experience in international arbitration under SIAC, DIAC, LCIA, ICC, SCC, VIAC, and ICSID rules, having previously worked with leading British and Austrian law firms and at the British Institute of International and Comparative Law. A Fellow of the Chartered Institute of Arbitrators, he is the joint recipient of the 2024 Hudson Prize (1st place). His research focuses on construction law, international dispute resolution, and arbitration reform.

Anthony Lavers

*Visiting Professor of Law
King's College London*

Anthony Lavers is a seasoned construction law and engineering disputes specialist based in London. He serves as Counsel in the Construction & Engineering Practice Group at White & Case LLP, where he advises on complex infrastructure and development projects, with a focus on dispute resolution, contract strategy, and risk management. A visiting professor at King's College London, Anthony also contributes to academic and industry discourse on construction law. He is recognised for bridging legal insight with practical project delivery needs, helping clients navigate contractual challenges and arbitrate high-value disputes across international markets.

Shy Jackson

*Partner
Bryan Cave Leighton Paisner*

Shy Jackson is a London-based partner at Bryan Cave Leighton Paisner, widely recognised for his expertise in construction and engineering dispute resolution. With over 20 years of experience advising on contentious matters including arbitration, adjudication, litigation and ADR across the UK and internationally, he represents clients on major infrastructure, energy and built-environment projects. Shy is a leading authority on standard contracts, notably NEC, and serves on the NEC Contract Board. He is a Visiting Fellow at King's College London, a frequent industry speaker and published author, and has received accolades for his thought leadership and industry collaboration.

Faculty Profiles

Prof. Dr. Avinash Dadhich

*Founding Director, Dhirubhai Ambani University
School of Law*

Prof. (Dr.) Avinash Dadhich is the Founding Director of the Dhirubhai Ambani University – School of Law and a Global Advisory Board Member at AMS Ethical AI, where he contributes to advancing responsible and ethical AI adoption. His academic and research expertise spans AI law and ethics, data privacy, and competition law. He has held senior academic leadership positions at Manipal Law School, MAHE, Bengaluru, and IFIM Law School, Bengaluru. Dr. Dadhich has been invited as a visiting research fellow at the Max Planck Institute for Innovation and Competition, Munich; King's College London; and leading institutions in Brussels. In addition to his academic career, he has practiced as an advocate before the Supreme Court of India and advised global law firms, consulting firms, and regulatory authorities.

Prof. Christoph Kletzer

*Professor of Law, Vice Dean International and
Executive Education*

Professor Christoph Kletzer is Professor of Law at King's College London, where he joined in 2007, having previously taught at the Universities of Cambridge and Durham. He has also served as Director of Studies in Philosophy at Queens' College, Cambridge, and lectures at the University of Vienna. He holds MA degrees in Law and Philosophy from Vienna, and an LLM and PhD from Cambridge. His research spans legal, moral, and political philosophy, German Idealism, Weimar legal thought, and the intersection of law and technology.

Prof. Alisha Mehta

*Assistant Professor and Vertical Head of Construction Law, Contracts
& Arbitration Vertical at Dhirubhai Ambani University School of Law*

Ms. Alisha Mehta is a dispute resolution professional with experience in litigation and arbitration, including infrastructure arbitrations, real estate disputes, insolvency proceedings, and constitutional remedies. She began her career at Wadia Ghandy & Co., working with its dispute resolution teams in Mumbai and Ahmedabad. She has represented clients before courts and tribunals in Gujarat and Maharashtra and is known for her strategic legal advisory. After four years of practice, she pursued an LL.M. in Business Law at the University of Toronto on a full merit-based scholarship, specialising in international arbitration, commercial litigation, insolvency, and private international law, and gained transnational litigation and teaching experience in Canada.

Kelly Dippenaar

*Senior Programme Manager, Executive Education
The Dickson Poon School of Law*

Kelly Dippenaar is Senior Programme Manager for Professional and Executive Education at The Dickson Poon School of Law. She leads business development and programme delivery for customised executive education and oversees the launch of new open-enrolment courses. Kelly manages strategic partnerships and works closely with academic colleagues to ensure programmes are innovative, impactful, and delivered to the highest standards. Before joining the Law School in 2024, she held programme management roles at King's Business School and London Business School, where she led degree programme delivery and advanced operational excellence.

Two-Day Industry based Learning & Engagement

About the Industry Partners

Kroll

Kroll is a leading global financial and risk advisory firm that helps organisations navigate complex challenges, manage critical risks, and make informed strategic decisions in high-stakes environments. With several professionals and offices worldwide, Kroll combines deep domain expertise with data-driven insights to support clients in construction dispute analysis, expert testimony, project risk management, delay and quantum evaluation, and arbitration support across major international forums. Its expert services are recognised for independent, credible analysis and guidance throughout the project lifecycle, making Kroll a trusted partner in construction law, contracts, and dispute resolution globally.

Clyde & Co.

Clyde & Co. is a leading global law firm with a strong reputation in construction law, infrastructure, and dispute resolution, advising on complex projects and disputes across developed and emerging markets. Its Projects & Construction practice provides comprehensive legal services throughout the project lifecycle, from contract drafting and negotiation to dispute avoidance and resolution, including litigation, arbitration, adjudication, and mediation. Clyde & Co's multidisciplinary team combines deep sector knowledge with extensive international arbitration experience, supporting clients on high-value, cross-border infrastructure and construction matters worldwide.

Industry Programme Leadership

David Goodman

*Managing Director, Delay
Expert, Testifying Expert,
Kroll Advisory*

Michael Tomlinson

*Partner
Clyde & Co.*

Steven Cannon

*Partner
Clyde & Co.*

Two-Day Industry based Learning & Engagement

Day 1 at Kroll

Session 1: Delay, Disruption and Quantum in Complex Construction Disputes

Explore how delay, disruption, and quantum claims arise on complex construction projects, the methods used by experts and lawyers to analyse them, and how tribunals and courts assess causation, methodology, and evidentiary credibility. This session bridges project realities with expert analysis and legal scrutiny in both arbitration and litigation.

Session 2: Advocacy, Adjudication and Decision-Making in Construction Disputes

Gain insight into how construction disputes are argued, decided, and shaped at the highest levels across courts, tribunals, and arbitration panels. The session focuses on advocacy strategies, tribunal expectations, adjudicator reasoning, and the evolving role of construction law specialists in managing cross-border disputes.

Day 2 at Clyde & Co.

Session 1: Dispute Avoidance – Practical Guidance and Strategies

Disputes behaviours and strategies – causes of disputes on large projects and how to minimise the risks:

- Contractual issues, supply chain issues, unforeseen risks, uneconomic environment, project delivery and geopolitics
- Identifying issues that make disputes insoluble
- Working strategies and practical steps to overcome project problems

Working across cultures and professions on international projects:

- Managing multidisciplinary teams and clients
- Cultural nuances for multinational teams – perspectives on projects in Africa, Asia, Europe, Middle East and North America

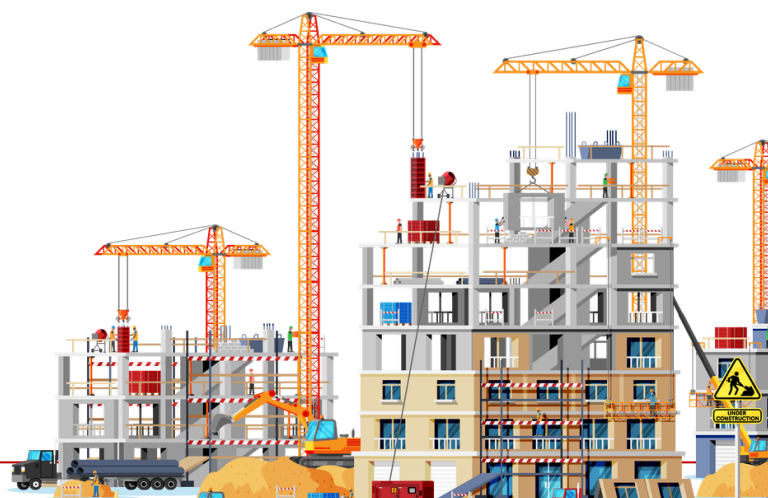

Geopolitics and global construction – how to protect project delivery and minimise risk:

- Global trends
- Navigating tariffs and sanctions
- Contractual and commercial strategies

Session 2: Managing Disputes Masterclass – International Best Practice

Legal leadership and project management – global legal perspectives on managing and handling disputes on large projects:

- Common dispute trends across the globe and how to resolve these successfully
- The rise of adjudication and how to leverage adjudication / dispute boards to unlock the project
- Practical strategies to prepare for disputes and maximise your chances of success
- Managing your team through a dispute

Speakers for Industry-based Learning & Engagement

David Goodman

Managing Director, Delay Expert, Testifying Expert, Kroll Advisory

David Goodman is a Managing Director in the Expert Services practice, based in London. A civil engineer and delay analyst, he has over 25 years of experience in the construction industry, including 17 years in project planning, strategic advisory, project management, and dispute resolution roles worldwide. He has acted as an expert witness, preparing reports and giving oral testimony on time-related disputes. His experience spans commercial and residential developments, civil infrastructure, and oil and gas projects across all project phases.

Joanne Prior

Managing Director, Quantum Expert, Testifying Expert, Kroll Advisory

Joanne Prior is a Managing Director in the Expert Services practice, based in London. A Chartered Quantity Surveyor with over 30 years of experience, she is an accredited RICS expert witness regularly appointed as a quantum expert on complex international construction and engineering disputes. Joanne has extensive testifying experience before courts and arbitral tribunals, including the Technology and Construction Court and ICC and DIAC arbitrations. Her project experience spans airports, civil infrastructure, high-rise and mixed-use developments, and railways, with particular expertise in construction claims and professional negligence matters.

Rob Palles-Clark

Managing Director Delay and Quantum Expert, Testifying Expert, Kroll Advisory

Rob Palles-Clark is a Managing Director in the Expert Services practice, based in London. A quantity surveyor and quantum and delay expert, he has over 30 years of experience across construction and engineering projects in the UK, Europe, and internationally. He is regularly appointed as an independent expert witness and has given evidence before the Technology and Construction Court and international arbitral tribunals. Rob has extensive experience in adjudication and mediation, construction claims, procurement advisory work, and serves as an adjudicator on RICS, TeCSA, and RIBA panels.

Mark Gordon

Managing Director, Quantum Expert, Testifying Expert, Kroll Advisory

Mark Gordon is a Managing Director in the Expert Services practice, based in London. A Chartered Quantity Surveyor and quantum expert, he has over 30 years of experience in the construction and engineering industry. He has been appointed as a quantum expert on more than 70 occasions in the UK and internationally, on disputes valued up to USD 5 billion and major megaprojects exceeding USD 20 billion. Mark has worked across public and private sectors on projects including airports, power, rail, ports, healthcare, manufacturing, and large-scale commercial and residential developments.

Michael Tomlinson

Partner, Clyde & Co.

Michael is a Partner in Clyde & Co's Projects & Construction group, specialising in complex construction and engineering disputes across the infrastructure, energy, and healthcare sectors in the UK and internationally. He advises on the full range of contentious projects matters, including PFI/PPP and P3 projects, and represents clients in the Technology and Construction Court, arbitrations, adjudications, and mediations. Michael has particular experience in Canadian P3 and healthcare disputes and is a member of the Society of Construction Law North America.

Steven Cannon

Partner, Clyde & Co.

Steven is a construction and engineering disputes specialist with over 15 years of experience advising on domestic and international arbitration, adjudication, expert determination, and mediation. Qualified in 2000, he has extensive experience across the UK, the Middle East, and South and South East Asia. Steven has acted in arbitrations under ICC, SIAC, and DIAC rules across multiple jurisdictions and advises employers, contractors, and consultants on disputes in the mining, energy, infrastructure, process, and development sectors.

Speakers for Industry-based Learning & Engagement

Anthony Albertini

Partner Clyde & Co.

Anthony advises on all aspects of construction and engineering disputes, with experience in both national and international matters. His practice spans arbitration, court proceedings, adjudication (including DABs), expert determination, and mediation. A trained mediator, he is on the Technology and Construction Solicitors' Association panel of mediators. Anthony regularly works with barristers, claims consultants, and expert witnesses, handling disputes under all major forms of contract, and also acts on claims involving professional indemnity and contractors' all risks insurance.

Julian Bailey

Partner at Jones Day, London and Visiting Professor, Dickson Poon School of Law, King's College London

Julian Bailey advises on international construction and infrastructure projects and disputes across sectors including transport, energy, oil and gas, power and renewables, mining, marine, healthcare, and defence. He has represented sovereign governments, developers, and contractors worldwide. Julian served as Chair of the Society of Construction Law (UK) from 2015–2016 and is the author of the leading three-volume text *Construction Law*. He is a Visiting Professor at King's College London and an Adjunct Professor at Hamad bin Khalifa University, Qatar.

Shy Jackson

Partner at BCPL LLP

Shy Jackson is a leading construction disputes lawyer with over 20 years of experience advising construction and engineering firms on high-value arbitrations, adjudications, court proceedings, and ADR. He represents clients on major infrastructure, energy, and real estate projects across the UK and internationally. Shy provides strategic, commercially focused advice on disputes involving delay, payment, and quality issues. He is highly experienced with all major construction contracts, including FIDIC and JCT, and is widely recognised as a leading expert on the NEC form of contract.

Jonathan Tattersall

Partner at Addleshaw Goddard LLP, Construction and Engineering / Head of Asia London, UK

Jonathan is part of the Global Construction & Engineering Team at Addleshaw Goddard LLP, specialising in international arbitration, litigation, and all forms of ADR. He has extensive experience in energy and infrastructure projects, particularly under FIDIC contracts, advising and arbitrating disputes worldwide. Jonathan has worked on projects across Europe, Asia, North America, Africa, and the GCC, including industrial and power plants in Jordan, port facilities in Saudi Arabia and Oman, power projects in Qatar, and commercial developments in the UAE.

Rupa Lakha

Partner at Osborne Clarke, UK

Rupa is a specialist in contentious construction and engineering matters, acting for clients across the supply chain, including developers, main contractors, and specialist sub-contractors. She advises on domestic and international disputes involving large, complex, and high-value projects across multiple sectors. Experienced in all forms of dispute resolution including mediation, adjudication, arbitration, and High Court proceedings. Rupa also provides strategic advice on live projects, helping clients troubleshoot issues and proactively manage risks to prevent disputes.

Samuel Townend KC

Keating Chambers

Samuel Townend KC is a senior barrister at Keating Chambers, specialising in domestic and international construction, arbitration, energy, and professional negligence disputes. Renowned for his strategic insight and advocacy, he advises on complex, high-value infrastructure and engineering matters across multiple jurisdictions. Samuel is recognised in leading legal directories for his technical expertise and clarity of argument. He also serves as an accredited mediator, adjudicator, and dispute board member, combining deep legal knowledge with practical experience in multi-jurisdictional disputes.

Speakers for Industry-based Learning & Engagement

James Pickavance

Partner Jones Day

James Pickavance advises on complex construction and engineering matters, representing contractors, owners, and developers on public and private projects across energy, power, infrastructure, and commercial sectors. He provides project advisory and dispute avoidance support and has extensive experience in all major forms of dispute resolution, particularly international arbitration under various institutional rules and jurisdictions. James is a member of the Society of Construction Law, Adjudication Society, ICLA, and Construction Lawyers Society of America, and serves as a visiting professor at King's College London.

Akin Akinbode

Partner, Dentons

Akin specialises in risk mitigation, dispute avoidance, and dispute resolution in construction and engineering matters across the energy, power, transport, real estate, and public sectors. His experience spans negotiations, ADR (conciliation, mediation, adjudication), domestic and international arbitration, and litigation. Akin regularly acts as project counsel on live infrastructure projects, advising on risk management, change orders, delay and disruption, defects, final accounts, service-level obligations, and contractual interpretation.

Linzi Hedalen

Partner, Dentons

Linzi is a Partner in Dentons' Projects practice in Edinburgh, specialising in construction and engineering dispute resolution. She advises UK and international clients on complex infrastructure, energy, renewables, and transport projects, including PPP/PFI arrangements. Her experience spans all major UK standard form and bespoke contracts, with expertise in litigation, mediation, adjudication, and international arbitration. Linzi also brings strong commercial insight from her secondment as general counsel to a renewables developer.

Learning Formats

Methodology

Expert-led session by world renowned academicians and industry experts

Case studies from global industries and hands-on training

Peer learning forums & leadership roundtables

Scenario-based workshops and strategic simulations

Campus immersion and curated King's College London engagements

Expression of Interest

Participation in the Cohort

Expressions of Interest are reviewed on a rolling basis. Executive participation is confirmed through a curated evaluation process designed to ensure a distinguished cohort of senior leaders whose experience and responsibilities align with the strategic objectives of the programme.

ELIGIBILITY

- Minimum 7 years of relevant professional experience
- Demonstrated interest in Construction Law, Contracts & Arbitration
- Leadership, strategic or policy-making responsibility

REQUIRED DOCUMENTS

- Professional Profile / CV
- Statement of Purpose

ONBOARDING

Final onboarding is based on professional experience, interaction with faculty member, and cohort fit.
